

# RIVERENCE

RIVERENCE

*Euclid* **FISH** *Company*

Riverence land-based family of farms rests along the Snake River in Idaho's Magic Valley. The location drives in Fresh Mountain, spring water that flows through the raceways of the fish giving the flesh pure flavor.

Riverence Red Meat and Golden Trout are raised with no preventative antibiotics, No growth hormones, and no-GMOs. All trout is traceable from the beginning starting with broodstock, egg hatching, and grow-out and processing.

Once the fish is ready for harvest all fish is hand dressed, cut, boned and trimmed for a perfect plate presentation with short cook time, mild flavor, and tender texture.

**Steelhead Trout**

*Dressed*
